EDUCATION

Undergraduate at SLIIT (2023 - Current)
Faculty of Computing
BSc (Hons)-Information Technology

St. Anthony's College - Kandy
G.C.E (A/L) 2022
Physical science Stream

SKILLS

- Problem solving
- Time management
- Leadership
- Team Collaboration
- Critical Thinking
- Fast learner
- Working Under Pressure

LANGUAGES

- English
- Sinhala

ABOUT ME

Motivated IT student with a strong foundation in programming, OOP, database management, and UI/UX design. Familiar with Agile methodologies and skilled in using modern tools to create user-friendly solutions. Eager to apply my knowledge in real-world projects, with a growing interest in artificial intelligence and its applications. A quick learner with problem-solving skills, passionate about continuous improvement and innovation.

PROJECTS

ASCII art generator
It has a real-time art generator and a way to upload photos and convert them into ASCII art.
Technologies : Java script

Train tracking system UI
An option has been created to allow us to reserve the seat we want, which is not available in the current train tracking & booking systems.
Technologies : Figma

Driving school management system
We are in the process of developing a driving school management system that is currently not used in Sri Lanka. We are adding many options that are specific to busy people.
Technologies : MERN STACK

Travel & Adventure mobile application ui
I designed it so that travelers can write their own vlogs, read other people's vlogs about the places they travel to, and I designed it with an adventure activities booking system
Technologies : Kotlin

Computer parts management system
Built a Java-based computer shop management system to handle product listing, inventory and customer orders.
Technologies : Java

EXPERTISE

Programing Language
Java, C, C++, Phython, JavaScript, Php, RStudio

Web Developing and Frameworks
Html, CSS, Bootstrap, React, Express, ReactJS, Node.js

Database Systems
MySQL, MongoDB

Mobile Development
Kotlin

UX/UI design tools
Figma, Adobe XD

INTERESTS

- Passionate about user-centered design and creating intuitive interfaces.
- Enjoy exploring design systems and scalable UI components.
- Following new trends in technology, AI, and design
- Keen on mobile-first and responsive design approaches.
- Learning how AI can be used to solve real-world problem.
- Interested in how design and AI can work together to improve experiences.
